AUGMENTATION DES INDICATEURS DE PRÉCARITÉ 2006-2007

DÉPENDANCE DES BÉNÉFICIAIRES DE L'APA

\* : *Autonomy Personnal Allowance*

# GERONTOLOGY AND DISABILITY

## Observations:

- a general drop of retirees incomes
- funding schemes decrease with a more important family burden
- an old age landscape moving with 2 or 3 additional slices of life
- decreasing average age of dependency coming up, mainly lived at home lived
- disabled people for whom we intervene in a context where all the partnerships have to be developed
- Care not only on the intervention but also on the frame in intervention (housing and accessibility)
